Jimmy Blakeney - House Bill 5696 - FOR

Members of the House Committee on Finance,

As a resident of South Kingstown with two children enrolled in our elementary schools, I am writing to voice my enthusiastic support for Bill no 5696. While the teachers and staff in South Kingstown schools are top notch, our school buildings are in urgent need of \$85 million in required updates to modernize them and improve safety and health standards. This need is urgent and we must act to address these issues as soon as possible.

Respectfully,
Jimmy Blakeney
